## Sunday River Skiway Plan Submitted

Plan for the development of the Sunday River Skiway on Barker Mountain, as submitted by Sno-Engineering Corp. of Albany, N. Y. and Franconia, N. H. to the local group that is promoting Maine's newest ski area on the outskirts of Bethel.

The narrow white line in the center of the above picture indicates the location of the 4,700 ft. lift-line from the base to the summit, while the wider paths outline a pattern of trails for beginner, intermediate, and expert skiers that

will be comparable to any in New England when completed.

The lift-line has already been cleared from the base to summit, and the open slope to the left of it has also been cleared to a width of 200 feet, and a distance of 3,000 feet from the base.

During the past week, Sno-Engineering completed the surveying of the mountain, and it is expected that it will submit final specifications for the lift to the local Skiway Corporation within a few weeks.

### COMMENTS FROM THE TOWN MANAGER'S OFFICE

As the season for building construction or making renovations or alterations to existing property is at hand your attention is called to Sec. VIII of the Zoning Ordinance which requires a building permit. Maintenance repairs such as painting or shingling do not require a permit. However it would be best to inquire at the Town Office before starting any project as to whether a permit is needed. There is no charge for issuing a building permit. The only requirements is that it conform to the Zoning Ordinance. If the request does not conform to the Zoning Ordinance it will be referred to the Board of Appeals for a public hearing.

A meeting was held at Rumford on March 24th for assessors and collectors. I had the opportunity to attend as well as your assessor, Maurice Kendall. Due to previous commitments the other members of the Board of Assessors were unable to attend. The meeting was conducted by Mr. Bismarck of the Bureau of Taxation. Some of the more important topics discussed were assessment and collection of property taxes, excise taxes, tax liens, and taxation of house trailers.

Sincerely,  
Harold L. Bean

"Your love for your children and concern for their education and, above all, their sound character development extends far beyond your own family of eight children. For 22 years you have been either leader or assistant leader of your local 4-H club. You have served 13 years on your school committee.

## CONGRESSMAN OLIVER

## REPORTS FROM WASHINGTON

Last week, I had the privilege of testifying before the House Banking and Currency Committee in support of a bill to provide financial aid for our country's depressed areas. This is the same bill which was recently passed by the Senate and also by and large the same measure which was vetoed by the President in September of last year.

Before I go any further, I would like to emphasize that this legislation is not designed as a giveaway measure, but as a method of providing funds to communities and to rural areas which have an abnormal amount of unemployment. Industries could borrow funds to finance long-term development projects at a lower rate of interest than available on the open market, provided they locate in areas of substantial unemployment.

We must face facts. Maine has been severely hit by the recent recession and chronically depressed through the loss of our textile industry. The Bureau of Labor Statistics January figures indicate that 3 Maine regions are classified as substantial labor surplus areas: Portland, Biddeford-Sanford, and Lewiston. In fact, the rate of unemployment in our entire state is 10.9%.

The Biddeford-Sanford area is worst hit with an unemployment rate of 12.1%. This region, which has been on the list of substantial labor surplus areas since March, 1954, would qualify for aid under the depressed area legislation when enacted. If unemployment persists in Portland and Lewiston, these areas would qualify in the near future.

I feel very strongly about this issue. Under the slogan of foreign aid, our country spends millions on

Known Troop 8, Divisions A and B, met with their leaders Tuesday afternoon. After the business meeting we made covers for our birdbooks and studied two birds, the bluebird and the goldfinch. Mrs. Edward Wheeler donated a great deal of the birdbook material that we will be using for which we are very grateful. Games and refreshments were enjoyed. Hostesses for next week will be Copper Coolidge, Darlene Merrill, Gretchen Dock and Sharon Brown.

All members of the second grade Brownie Troop attended the meeting at the Primary School Tuesday. In keeping with the spring season, we studied about birds and their songs. Refreshments were brought by Betsy Fox and Katrina Lowe.

aid to debtorships and millions toward setting up foreign countries in textile and other industries in competition with domestic producers, but the necessary funds to help the depressed areas in our own country to get back on their financial feet are denied.

Many people in Maine quake at the very mention of increased Federal activities, but in this instance I feel there is simply no alternative. Our state has suffered disastrously from the loss of the textile industry. The Federal Government was indirectly to blame for this loss. Thus, I feel that the Government has an obligation to our state which can in part be paid by the enactment of adequate depressed areas legislation. Certainly, this is the bare minimum that we can ask.

### TWO WEEKS LEFT TO FILE

There now is reminding you that only two weeks are left to file your 1958 Federal income tax return.

Whitney L. Wheeler, Director of Internal Revenue for the Augusta District, said several thousand taxpayers in this area have not filed as yet.

"Remember," he said, "late filers who wait until the last moment to file in haste are prone to omit some important items, such as their signatures, Form W-2s, Social Security numbers, etc."

He added they also make mistakes which are costly to themselves, as well as to Uncle Sam.

"Do it now and do it right," Mr. Wheeler advised.
